# Growing the Economy by the Religious Valuations in Alqush Town

## Regional Planning

tu technische universität dortmund

Current Status

Alqush Map With Religious Tourism Sites

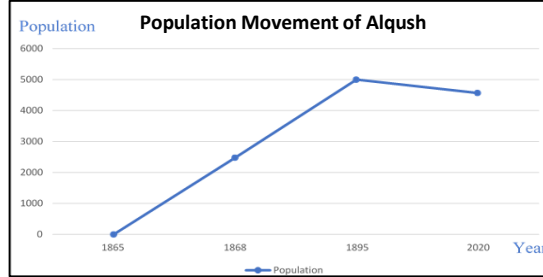

### Problems:

- Immigrants due to lack of job opportunities.
- Lack of informational data in the area.
- Car dependency region.
- Neglectful tourism places.
- High unemployment rate.
- A deficiency of the healthcare system.
- A strict society that has some complex rules that discourage many people to visit the area.

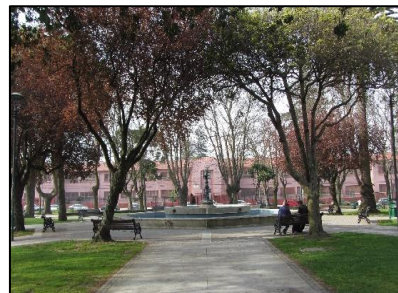

Shop of Alqush

### Goals:

- Improve tourism and historic areas.
- A public transportation system in and between Alqush and other areas.
- Job opportunities to decrease immigration.
- Enhance the skill and knowledge of the Alqush residents.
- Improve healthcare system.
- Preserve the importance of town valuable areas, places and environment.
- Encouraging social and cultural activities in the area.
- Make tourists spend most of their time at Alqush

Plaza as open space
